

Staying Safe at home

These tips have been inspired by the news on electrical appliances so it is important we stay safe.

Unless it is from an authorised store like PC World for example avoid buying chargers and other electrical appliances from eBay or Amazon, or other stores that people not necessary stores selling products and second hand.

Turn appliances off if they are not being used. We turn off the washing machine, oven and hob .

Don't put items in front of doors. If you have a fire you need to make sure that you can get out.

Keep windows closed when going out and if they are low and your children easily can climb up to them.

Keep cleaning products away from your children and out of easy reach or in a locked draw.
