

February Newsletter 2025

Welcome to my Newsletter for February 2025. Did you go out on Valentines Day?

We, my son and I had a meal with my mum and step dad. I didn't get a gift but I am okay with that.

I no longer feel annoyed and not a humbug about it anymore and happy for you if you enjoyed celebrating with your love ones.

The next celebration is Easter. Why do stores bring out the Easter Eggs so early?

Also just came into my brain, when is pancake day? Have I missed it. Just checked it's in March the 4th. So will be time to flip a pancake challenge. How many will stay on the ceiling?

Then there is International Women's Day on the 8th March 2025. We are wonderful humans, and celebrate the things woman do. We had a Queen, , in the UK had three female prime ministers, no matter what your opinion is of them and we produce new human beings and the England Women's football team who reached the final of the World cup and being recognised for their success and I feel we often have more pressure on us as woman and have to prove ourselves even more than man.

So raise a glass to all the ladies and for the women who have changed the world.

So it is half term I went for a walk from Wimbledon to Southfields via Wimbledon park and saw that the cafe has changed to a restaurant and have mini golf and in the summer they often have the splash pool and a sand pit.

It is good location to, when the weather gets better to play and often have a a funfair. They didn't yesterday. When there is a funfair it is mainly for small children but there is a pond to, where they do canoeing in the summer and can feed the swans and ducks. So a good location and then there is Morden Hall and often have a Easter Egg hunt and things going on and has a lovely garden center and a cafe.

My son and I, have joined parkrun up at Wimbledon common on Saturday mornings and its been hard but really good fun and worth checking out . It is completely free to do and get to meet people and not so keen with the super mud pools, but will be nice in the summer and when we get sunshine. It is hard but going to continue and last one we did, we did a bit of running.

It will mean more blogs, vlogs and filming for my other Youtube channels and to find all my content go on my twitter, Pinterest and Facebook. I do post a lot on instagram so please take a look.
