What I Tend To Save for the Autumn

My Collection of jumpers and make sure I have enough layers as my son does sports at the weekend and that we are wrapped up for the cold mornings.

Money by having No spend days

Money for birthdays as I have many leading up to Christmas

Coats and Jackets

Conkers to stop the spiders coming in

Bed socks and good set of easy put on footwear. I like having a set of boots and trainers that are waterproof and can cope with different weathers and purposes.

Tin food that can be used for Breakfasts, lunches and dinners like soups and tins of vegetables and items in the freezer that can be stored for hot meals like vegetables and food sachets to season hot meals like Casseroles and stews.
